Intelligent Automatic Lifting Truck

- 专利设计，智能化自动化，人机工程完美结合，精美、安全、高效
- 适用高端汽车零部件、电子等行业，精益、高效生产工位周转箱使用
- 移动式结构，方便需变化工位场合，移动轻便，刹掣安全，稳固
- 固定式结构，外形空间小，升降操作更稳固
- 可实现多种复杂智能程序控制功能和非标定制，满足特殊要求
- Patented design, intelligence and automation, ergonomics can be delicate, safe and effective
- Suitable for high-end automotive parts, electronic and other industries; delicate and effective production station with
- Portable structure is convenient for changing stations. Easy movement and safe brake
- Fixed Structure, small size and space, more stable
- lifting operation

Various intelligent control function and non-standard customized can meet different special demands.
